

# Planetarium Fund

## Eurocurrencies Bonds – Class A

### Fund Philosophy

The fund is actively managed with the target to maximize returns in a medium term perspective. The fund invests at least two thirds of its assets in Euro denominated bonds or bond related instruments, with a high fundamental quality and traded on regulated markets. The remaining third can be invested in liquid instruments and bond related instruments denominated in currencies other than Euro, or in mortgage-backed and asset-backed securities with guarantee from a high rated issuer. Convertible bonds are allowed with a 25% maximum. Currencies of the investments that aren't denominated in Euro can be hedged.
