

Planetarium Fund

Dollar Bonds – Class A

Fund Philosophy

The fund is actively managed with the target to maximize returns in a medium term perspective. The fund invests at least two thirds of its assets in US Dollar denominated bonds or bond related instruments, fixed income issues or floating rate instruments, with a high fundamental quality and traded on regulated markets. The remaining third can be invested in liquid instruments and bond related instruments denominated in currencies other than the US Dollar (in particular Canadian, New Zealand and Australian Dollar), or in mortgage-backed and asset-backed securities with a guarantee from a high rated issuer. Convertible bonds are allowed with a 25% maximum. Currencies of the investments that aren't denominated in US Dollar can be hedged.
