What is this product?

TYPE

The product is a sub-fund of Planetarium Fund, an Undertaking for Collective Investment in Transferable Securities (UCITS) incorporated as a variable capital investment company (SICAV) under the laws of Luxembourg.

TERM

The Sub-Fund is established for an unlimited duration. However the Board of Directors may decide to close this product under certain circumstances.

OBJECTIVES

The Sub-Fund aims to outperform the Dow Jones Stoxx Europe 50 Index over the medium term through a fundamental selection of European securities.

The Sub-Fund is actively managed in reference to the Dow Jones Stoxx Europe 50 Index. The manager may deviate to a material extent from the benchmark in terms of securities and weightings.

It invest at least 75% of its net assets in equities or similar transferable securities issued by companies that have their registered offices in or carry out the majority of their business in Europe.

The Sub-Fund may also invest up to 25% of its net assets in units of other UCIs, as well as hold Ancillary Liquid Assets (up to 20% of its net assets) in order to cover current or exceptional payments or for the time necessary to reinvest those Ancillary Liquid Assets in eligible assets.

The Sub-Fund will not invest more than 10% of its Net Assets Value in aggregate in units of other UCITS or other collective investment schemes.

The Sub-Fund may invest up to 10% of its net assets in SPACs that are eligible and qualify as transferable securities within the meaning of Article 1 (34) and Article 41 of the 2010 Act and Article 2 of the 2008 Regulation.

In order to manage foreign exchange risks, investments in currencies other than the portfolio's reference currency may be hedged.

The Sub-Fund will use Securities Lending transactions to generate additional capital or income up to 100% of the Sub-Fund's net assets (expected percentage is 30%).

Sale of shares in the Sub-Fund can be made on any business day.

Please refer to the Prospectus for more information about the Sustainable Finance Disclosure Regulation ("SFDR") classification of the Sub-Fund.

Any income arising from the Sub-Fund's investments is reinvested and reflected in the value of your shares.

INTENDED RETAIL INVESTOR

The product is suitable for retail investors with limited knowledge of the underlying financial instruments and no financial industry experience. The product is compatible with investors who may bear capital losses and who do not need capital guarantee. The product is compatible with clients looking for growing their capital and who wish to hold their investment over 7 years.

What are the risks and what could I get in return?

Risk indicator

The risk indicator assumes you keep the product for 7 years.

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

The essential risks of the investment fund lie in the possibility of depreciation of the securities in which the fund is invested.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable proxy over the last 12 years. Markets could develop very differently in the future.

Recommended holding period: Example investment:	7 years EUR 10 000		
	If you exit after 1 year	If you exit after 7 years	
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress scenario	What you might get back after costs	EUR 6 430	EUR 1 340
	Average return each year	-35.7%	-24.9%
Unfavourable scenario	What you might get back after costs	EUR 7 910	EUR 10 250
	Average return each year	-20.9%	0.3%
Moderate scenario	What you might get back after costs	EUR 10 550	EUR 12 820
	Average return each year	5.5%	3.6%
Favourable scenario	What you might get back after costs	EUR 13 370	EUR 15 750
	Average return each year	33.7%	6.7%

The stress scenario shows what you might get back in extreme market circumstances.

What happens if Lemanik Asset Management S.A. is unable to pay out?

Lemanik Asset Management S.A. is not making any payment to you in relation to this Sub-Fund and you would still be paid in case of a default from Lemanik Asset Management S.A.

The Sub-Fund's assets are held with BNP Paribas, Luxembourg Branch and are segregated from the assets of other sub-funds of the Company. The assets of the Sub-Fund cannot be used to pay the debts of other sub-funds of the Company.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- EUR 10 000 is invested.

Investment of EUR 10 000	If you exit after 1 year	If you exit after 7 years
Total costs	EUR 488	EUR 2 590
Annual cost impact (*)	4.9%	2.8%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 6.4% before costs and 3.6% after costs.

We have classified this product as 4 out of 7, which is a medium risk class.

This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Please refer to the Prospectus for more information on the specific risks relevant to the product not included in the summary risk indicator.

This product does not include any protection from future market performance so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose your entire investment.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	Up to 2.50% of the amount you pay in when entering this investment.	Up to EUR 250
Exit costs	We do not charge an exit fee for this product.	EUR 0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.94% of the value of your investment per year. This is an estimate based on actual costs over the last year.	EUR 194
Transaction costs	0.26% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	EUR 26
Incidental costs taken under specific conditions		
Performance fees	The performance fee per share is 15% of the positive difference between the rate of performance of the NAV per share and the rate of performance of the Dow Jones Stoxx Europe 50 Index, applied to the average net assets of the sub-fund. The Manager may charge a performance fee only if any underperformance in the previous quarters has been completely recovered. The reference indicator is a combination of a high-water mark ("HWM") and the benchmark (Dow Jones Stoxx Europe 50 index). A performance fee is paid when the sub-fund overperforms the HWM and the benchmark over the calculation period, corresponding to the end of each quarter. The performance fee is calculated and accrued on a daily basis. It is crystallized and paid at the end of each quarter. The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years.	EUR 18

How long should I hold it and can I take my money out early?

Recommended holding period: 7 years.

The recommended holding period was chosen to provide a consistent return less dependent on market fluctuations.

Redemptions are possible at any time and without limitation. All redemption requests must be received in good order by the Registrar and Transfer Agent prior to 2 p.m (Central European time) on one (1) Business Day (any bank business day in Luxembourg) preceding the relevant calculation day of the NAV. Redemption proceeds shall be paid in the relevant reference currency usually within two (2) Business Days following the relevant calculation day of the NAV.

How can I complain?

In the event a natural or legal person wishes to file a complaint with the Sub-Fund in order to recognize a right or to redress a harm, the complainant should address a written request that contains description of the issue and the details at the origin of the complaint, either by email or by post, in an official language of their home country to the following address:
